ENRICH Funding Summit at South By Southwest 2021

Friday, March 19ᵗʰ, 2021
08:00 am - 12:00 pm PST / 16h00 - 20h00 CET

ENRICH in the USA is proud to present its Funding Summit at SXSW Online 2021. This virtual event will be introducing a selection of 24 Global startups representing 11 European and Associated Countries to 24+ top US investors (early stage VCs, business angels and equity accelerators - from the Silicon Valley in majority) and ENRICH in the USA soft landing hubs and ecosystems experts.

Zoom Conference - Link
Meeting ID: 631 412 0086 - Passcode: enrichsxsw
One tape mobile: +16699006833,,6314120086#,,,,,,0#,,7303981760# US (San Jose)
or Find your local number: **https://temple.zoom.us/u/ac7Ar9gGoS**
Meeting ID: 631 412 0086 - Passcode: 7303981760

Agenda

Welcome and Introduction from ENRICH in the USA Centers and Hubs (30 min)
Dive into 4 start-up ecosystems to understand the best for your venture.
We are delighted to receive special tech stakeholders from Philadelphia, Austin, North Virginia and North California representing ENRICH soft-landing Hubs and Centers.

Two pitch sessions of 3 rooms in parallel (1 hour 40 minutes each)

Each room represents a theme : Room#1 TechforHealth followed by TechforGood, Room#2 TechforCity followed by TechforBiz, and Room#3 TechforEntertainment (Music, Cinema, Media, XR, and Gaming included).

Each session starts with a 20 min reverse pitch from investors and ecosystem experts followed by 4 x 20 min pitch from startups (5 min of pitch and 10 min of Q&A).

Selected Start-ups

Acqustic - Barcelona, Spain | Entertainment | **http://acqustic.com** | Acqustic is a new platform that allows emerging musicians to grow from zero to hero. Bringing the record label concept to a mobile app for artists that includes: music career opportunities, digital distribution, playlisting, rights management and invoicing. | **Esteve Lombarte Llado**, CEO | esteve.lombarte@acqustic.com

Advantis Medical Imaging - Eindhoven, Netherlands | Health | **http://advantis.io** | Advantis Medical Imaging develops advanced cloud-based software solutions which improve the detection efficiency of severe human pathologies. | **Paris Ziogkas**, COO & Head of BD | pz@advantis.io

Aulart - Barcelona, Spain | Music | www.aulart.com | They offer Masterclass Video On Demand, Bootcamps and Mentoring sessions with top leader international artists and professionals. Thanks to their unique updated curated content catalog not available in classical education, they offer updated high-quality content validated by top music industry professionals. | **Marc Marzenit**, CEO & Founder | marc@aulart.com

Circulr - Barcelona, Spain | Consumer Product | **www.neckphone.io** | The reinvention of the headphones. Circulr is opening a new world of opportunities through sound tech hardware & software disruption with a patented open-ear sound technology. Absolute freedom with a seamless on and offline voice-controlled interface, 100% handsfree. | **Enoc Armengol Bermúdez**, CEO | enoc@buoqon.com

Clobot - Monza, Italy | Robotic | **http://clobot.uk** | Autonomous apparel production robots to help the apparel production industry to reduce manufacturing cost by 40%. The T-Bot can produce 10.000 T-Shirts in one day without any support of humans. | **Damiano Bonacchi**, CEO | damiano.bonacchi@clobot.uk

Crowdaa - Paris, France | Social Networking | **https://www.crowdaa.com** | Crowdaa is a "Wix for Community-oriented native mobiles apps". They enable non-developers to build, deploy and publish apps on iOS and Android in a few clicks and provide them with a 360-solution including e-commerce, CMS, CRM, geolocations and data-collection tools to operate the apps, distribute their content and manage their crowd. | **Vigile Hoareau**, CEO/CTO | vigile@crowdaa.com

Dayrize - Amsterdam, Netherlands | Marketplace | **http://dayrize.com** | Dayrize.com is a unique online consumer marketplace for sustainable products, with a mission to change consumption patterns from linear to circular economic consumption. The marketplace will service the rapidly growing consumer demand for environmentally friendly products and services. | **Austin Simms**, COO | austin@dayrize.com

Dromni - München, Germany | Drones | **http://dromni.eu** | Based on 3D data from drones, their software reconstructs the surrounding into a real-time virtual reality environment. Intuitive to use and easy to control, they enable everyone to perceive and interact with the environment without having to travel to the location. They are focusing on fire fighters as their early adopters, due to the need for higher situational awareness during emergencies and lower drones' regulations. | **Rafael Kückelhaus**, CMO & Co-founder | r.kueckelhaus@tum.de

HOP Ubiquitous (HOPU) - Murcia, Spain | IoT | **www.hopu.eu** | HOPU specializes in IoT market with a full solution called Smart Spot for creating smart and sustainable environments; environmental monitoring (air quality) and ambient monitoring (noise, temperature, humidity, light level, etc.) and also weather stations for accurate systems monitoring. | **Antonio Jara,** CEO & Founder | jara@hopu.org

Ligence - Vilnius, Lithuania | Health | **https://www.ligence.io** | Ligence is deep learning algorithms that are trained to recognize different heart pictures and perform different measurements on them so that a medical professional can skip doing them manually and instead focus on the patient. | **Dovydas Matuliauskas**, CFO | d.matuliauskas@ligence.io

Melbot Studio - Barcelona, Spain | Entertainment | **www.melbot.es** | They are a video game studio with a knack for innovation. Their latest project released last year was a multi-platform video game, and an interactive toy, out of the box to say the least for an indie studio. Their next project is an online multiplayer extravaganza intended to change the way viewers and content creators (streamers) interact with each other, breaking the wall between audiences and creators, and encouraging players to become creators on the way. | **Josema Roig, COO** | josema@melbot.es

Mirage Set - Czech Republic & Austin, United States | Video Production | **https://mirageset.com** | Creating an app that aims to improve video production for live and synchronous video communication. | **Michal Toporcer**, CEO | business@mirageset.com

MJN - Blanes, Spain | Medical Devices | **https://mjn.cat** | This company is dedicated to the design, manufacture and marketing of medical devices to improve the quality of life of people. The first device developed by mjn-neuro is a portable device in the form of a helmet to measure the risk of epileptic seizures and record them continuously. | **Jordina Arcal**, Co-founder | jarcal@mjn.cat

MoodMe - Brussels, Belgium | AI | **www.mood-me.com** | MoodMe vision is to apply Artificial Intelligence Face Analytics to create Augmented Reality Face – centric experiences. | **Chandra De Keyser,** CEO | chandra.dekeyser@mood-me.com

Omniopti - Ljubljana, Slovenia | Logistics | **https://omniopti.si** | New algorithm for multi-objective optimization in networks, which provides several Pareto-optimal alternative routes. Currently Omniopti is focusing on road logistics, however they also want to expand it to marine and air navigation. | **Martin Pecar**, CEO | martin.pecar@omniopti.si
Owogame (OWO) - Malaga, Spain | Gaming | **http://www.owogame.com** | Patented haptic gaming vest that allows players to feel over 30 different sensations in real-time while playing video games. It's a wireless system compatible with all platforms based on electro-muscle stimulation. This patented technology allows to create and customize different sensations. | **Jose Fuertes**, CEO | jfuertes@owogame.com

Parkingstream - Athens, Greece | Smart Cities | **www.parkingstream.com** | Parkingstream uses computer vision for measuring the vehicle flow. Their network of multi-purpose sensors, installed at the corners of a city center, form a smart network that coordinates a city's smart tasks. | **Christos Pateropoulos**, CEO | christos@parkingstream.com

Radiobotics - Copenhagen, Denmark | Health | **http://radiobotics.com** | Radiobotics applies deep learning to analyze MSK X-ray images and generate the radiological report automatically within a few seconds after image collection – as a diagnostic decision support tool to relieve radiologists' huge workload, increase efficiency of radiology departments deliver the diagnosis to the patients or other physicians in near real-time and support a 3-fold reduction of the risk of misdiagnosis due to human error. | **Stine Sørensen**, COO | stine@radiobotics.com

Renoon - Amsterdam, Netherlands | E-commerce | **https://renoon.com** | Renoon is a Search Platform empowering conscious shoppers to find sustainable ways to access fashion from multiple websites at once. As a tech-only platform, Renoon is the most convenient way for consumers to start their shopping experience and discover the best online retailer where to finalize their purchase. | **Iris Skrami**, CEO | irisskrami@renoon.com

Rezzonation - Weert, Netherlands | Entertainment | **https://windowsight.com** | Since music, video and gaming categories together cover the majority of available apps, it was a simple choice for Rezzonation to give consumers the opportunity to merge them together in the ONE app, manage them and share with each other through interactive elements. In the ONE app consumers can connect, manage and share their experiences in real time. | **Eric Derckx**, CEO | ericderckx@rezzonation.com

SpeakUPwise - Brugge, Belgium | Encryption | **www.speakupwise.com** | Encourage global transparency by offering a communication platform that enables individuals to report on concerns in a secure way and allows organizations to organize safe compliance with the new EU Whistleblowing regulations. | **Frank Staelens**, CEO | frank@confidentialreporting.network

The Original NeoCarbons - Montreux, Switzerland | Clean Tech | **www.neocarbons.com** | They develop and will sell/license the patented equipment that will revolutionize the manufacture of high value proteins by recycling CO2 emissions and/or excess atmospheric CO2 using photosynthesis and microalgae, real time, competitively, profitably and in full respect of SDG guidelines concerning land and water. | **Jean-Louis Roux Dit Buisson**, CEO | jlrb@neocarbons.com

Typewise - Zurich, Switzerland | Software | **https://typewise.app** | Their first product, Typewise Keyboard is the next-generation keyboard designed specifically for two-thumb typing on smartphones. | **David Eberle**, CEO | david.eberle@typewise.app

WindowSight - Barcelona, Spain | Entertainment | **https://windowsight.com** | WindowSight is an app to stream art to your TV. Their mission is to provide an accessible, digital and HQ art experience by bringing high quality digital artworks to homes worldwide and share the profits with artists. | **Pol Rosset Morera**, CEO | pol@windowsight.com
